

TPF-5(172)

An analytical review of child mobility assessments for school site programs study
Quarterly Report

The Transportation Pooled Fund study called the Statewide Mobility Assessment Study Phase I is ongoing. Pedestrian and bicycle collision data for children in Washington State from 2005 to 2008 is being geo-coded. A spreadsheet with national and state databases of possible interest has been compiled and is being used to identify priority data sources for the project. Other data collection for this study is underway. Regular monthly conference calls are ongoing with the partner states and the consultant. Current Members of this TPF Study are:

Washington, Texas, Florida and Mississippi.

Other states are encouraged to join.
