To: Patricia Sergeson
Transportation Pooled Fund Program Manager
Office of Corporate Research, Technology, and
Innovation Management
McLean, VA 22101

The Federal Highway Administration (FHWA), Office of Safety and Operations Research and Development would like to establish a follow-on pooled fund study to TPF 5(317) using 100 percent SPR-B funding. This request is for the solicitation titled: "Evaluations of Low-Cost Safety Improvements Pooled Fund Study (ELCSI-PFS)" (Solicitation # 1595).

The FHWA, Office of Safety and Operations Research and Development estimates approximately 40+ State DOTs will participate in this study with FHWA as the lead agency. We anticipate that most of the participating state DOTs will use SPR-B funding. The FHWA Lead and Technical Liaison for the study will be Charles Fay from the Office of Safety and Operations Research and Development until new staff is onboard.

Your approval to establish this pooled fund study at 100 percent SPR-B funding, while waiving the non-Federal funds match requirement, would be greatly appreciated. If you have any questions, please feel free to contact me at (202) 493-3269 or Brian.Cronin@dot.gov.
