

TRANSPORTATION POOLED FUND PROGRAM QUARTERLY PROGRESS REPORT

Lead Agency (FHWA or State DOT): Iowa Department of Transportation

INSTRUCTIONS:

Project Managers and/or research project investigators should complete a quarterly progress report for each calendar quarter during which the projects are active. Please provide a project schedule status of the research activities tied to each task that is defined in the proposal; a percentage completion of each task; a concise discussion of the current status, including accomplishments and problems encountered, if any. List all tasks, even if no work was done during this period.

Total Project Expenses This Quarter	Total Amount of Funds Expended This Quarter	Percentage of Work Completed This Quarter
\$11,076	N/A	NA

Project Description:

CTRE is organizing the 2025 Asset Management Conference to be held in Chicago, Illinois in August of 2025.

Iowa DOT seeks to partner with other interested states in developing the format and program for the conference and participate in related workshops along with a technology exchange session dedicated to state DOTs to learn and review issues associated with asset management and implementation strategies. An asset management conference supported and developed by members of the Asset Management TRB and AASHTO committees represents a unique opportunity for pooled fund members to learn from practitioners and researchers worldwide on new technologies, engineering, practice and research related to asset management in their own states. The technical program of the conference is being organized by CTRE, pooled fund members and TRB Standing Committee on Asset Management (AJE30) and AASHTO Subcommittee on Asset Management (CPBM-AM) representatives. The pooled fund will coordinate a states-only learning session meeting concurrently with the conference.

Objectives

There are three primary objectives of this pooled fund:

1. Provide communication and information sharing among member states. Discuss research needs and provide research ideas to be developed through TRB (and other research opportunities).
2. Provide a technology and knowledge exchange forum to enhance the practical knowledge of member states concerning asset management implementation.
3. Enhance the working knowledge of the asset management community.

Significant Results:

- Created a call for abstracts
- Worked with the conference planning committee to identify keynote speakers
- Developed a proposed schedule for the sessions

Circumstance affecting project or budget:

Nothing to report.
