<i>Objective</i> <b><i>Develop new design criteria for wiremesh and cable mesh slope protection systems that take into account longer and higher slopes, higher anchor loads, and snow loads.</i></b>				

**Progress in the current Quarter:**

The final report is complete and can be viewed at <http://www.wsdot.wa.gov/biz/mats/Geotech/>.

A report of the design guidelines is currently being produced and should be available in May 2005.

Implementation of the design guidelines is in progress.

**Summary of Activities Expected to be Performed Next Quarter:**

The report of the design guidelines will be finished, as well as the implementation efforts and the project will be complete.
