

**TRANSPORTATION POOLED FUND PROGRAM  
QUARTERLY PROGRESS REPORT**

Lead Agency (FHWA or State DOT): Iowa DOT

**INSTRUCTIONS:**

Lead Agency contacts should complete a quarterly progress report for each calendar quarter during which the projects are active. Please provide a project schedule status of the research activities tied to each task that is defined in the proposal; a percentage completion of each task; a concise discussion (2 or 3 sentences) of the current status, including accomplishments and problems encountered, if any. List all tasks, even if no work was done during this period.

## Project Description:

Departments of Transportation (DOTs) have shown a growing interest in harnessing the benefits of innovative materials in transportation infrastructure. However, without proper evaluation of these materials, DOTs remain hesitant to fully incorporate them into their infrastructure. The Transportation Materials Resource Center (TMRC) aims to reduce these hesitancies by evaluating potentially innovative construction and maintenance materials using life cycle analysis and materials assessments, sharing the results through information exchanges and development of standards and certifications for materials partner agencies would like to incorporate into their

## Progress this Quarter

**(includes meetings, work plan status, contract status, significant progress, etc.):**

The first kickoff meeting was held and the scheduling poll for the 2<sup>nd</sup> meeting is scheduled to be held in the next quarter to discuss the research topics and annual meeting arrangements.

## Anticipated work next quarter:

We plan to hold the 2<sup>nd</sup> meeting to discuss research topics and annual meeting arrangements. We also plan to prepare the list of request proposals to discuss with the DOT members.

--

**Significant Results:**

Nothing to report yet.
------------------------

**Circumstance affecting project or budget. (Please describe any challenges encountered or anticipated that might affect the completion of the project within the time, scope and fiscal constraints set forth in the agreement, along with recommended solutions to those problems).**

Nothing to report yet.
------------------------

**Potential Implementation:** The outreach and technology transfer efforts will be a cornerstone of TMRC’s mission. The TMRC Administrative team will be committed to disseminating research findings and fostering outreach at significant national events, as determined by the Executive Board. Active participation in developing new specifications, guidelines, and standards related to materials will persist through engagement with industry bodies such as the AASHTO-Subcommittee on Materials (SOM) and the ASTM Committee D18.14 during semi-annual meetings. Partnering organizations will be continually involved in TMRC’s mission through regular Executive Board meetings, quarterly (or more frequent as needed) sessions, and annual in-person meeting(s) at key events.

To ensure that the TMRC's knowledge remains accessible and up to date, the TMRC Administrative team will continuously enhance the TMRC website, offering a comprehensive and user-friendly resource. Furthermore, they will organize webinars and workshops upon request by the Executive Committee to facilitate knowledge transfer and address specific areas of interest. Recognizing the importance of responsive communication, the RMRC Administrative team will promptly address inquiries received through the website, emails, phone calls, or other channels. In addition, submission of quarterly reports detailing all research advancements and outreach/technology transfer activities will provide transparent progress updates. This commitment to robust outreach and technology transfer activities ensures that the knowledge and insights generated by TMRC are effectively shared and applied to benefit transportation infrastructure nationwide.
