

An Analytical Review of Child Mobility Assessments for School Site Programs
TPF-5(172)

Quarterly Report through March 31, 2010

Monthly conference calls with the partner states and researchers from the University of Washington and Florida have continued. Data collection and analysis of the standardized Safe Routes to School dataset for the participating states is ongoing.

Tasks completed this quarter include:

- Updated the Phase II workplan;
- Started an analysis of grant application review criteria and procedures;
- Reviewed the NHTS data regarding student transportation;

Current Members of this TPF Study are: Washington, Texas, Florida, Mississippi and Wisconsin.
