Mobile Source Air Toxics (MSAT) From Major Highways

Quarterly Report April 20, 2011 (January - March)

Monitoring in Detroit is entering its final quarter and there are no major problems to report. Integrated samples were taken during the week of January 9 through 18th, and the last week of March continuing into the first week of April. Final touches going on the Las Vegas data analysis report and that should be available summer 2011.
