105 Sixth Street
Ames, IA 50010

Dear Ms. Hugaboom:

The Iowa Department of Transportation is seeking partner agencies for the following transportation pooled fund solicitation:

Development of Structural Design Guide for Ultra High Performance Concrete, Solicitation 1434

The Iowa DOT will serve as lead agency for this proposed project. In support of this solicitation, the Iowa DOT requests a waiver to the non-Federal funding match for State Planning and Research (SP&R) funds for the conduct of this project. This waiver will allow for the use of 100% federal funds for this project.

Thank you for your consideration of this waiver.

Sincerely,

Brian Worrel, P.E.
SPR Research Engineer
