Importance: High

Ok thanks...I will add the solicitation number to your Waiver Request Letter.

We will get this started through the process...it takes two to three weeks and we will e-mail the approved Waiver Letter to you.

Masha...Please start this new waiver request through the process, the solicitation # 1437, and the Waiver Request Letter is attached. The Division office approval is in this e-mail chain.

Thanks,

David

Importance: High

Chris and Debra....

Has this solicitation been posted to the Pooled Fund Website yet? The solicitation number that is automatically generated by the website when a solicitation is posted

needs to be on the Waiver Request letter to identify which new solicitation/project you are requesting a waiver for.

Thanks,

David

Subject: 100% Waiver request for Solicitation Clear Roads Pooled Fund Posting

Hi David,
Attached is a Clear Roads pooled fund research study solicitation. The State has requested a waiver from the SP&R match requirement. The Division concurs with the request.
Please let me know if you have questions or comments or additional information is needed.
Thanks,
Kris

Hi Kris---

We have put together a solicitation proposal for Clear Roads II. Can I post this concurrently with getting approval for 100% waiver or do you want to see the proposal first and approve that prior to posting---
