

Transportation Pooled Fund Program

Project Title: Fish Passage Capability through Modified Culverts: Flume Research Study		
Project Manager and Phone Number: Rhonda Brooks, Research Manager (360)705-7945	Project No: SPR-3(096)	Project is: <input checked="" type="checkbox"/> PLANNING <input type="checkbox"/> R&D
Reporting Period: 5/31/05 to Present	Multi Year Project Yes	
Description of Work Performed and Progress: Fish trials were completed in early 2006 which involved juvenile coho passage through culverts retrofitted with baffles. Additional hydraulic studies were also conducted during this period. The project steering committee will beholding a meeting March 28 and 29, 2006 in Seattle, WA to discuss research results and to chart the future course of research inquiry. Reports from the baffle retrofit testing are scheduled to be available in the Spring, 2006.		
STATUS AND COMPLETION DATE Percentage of work completed to date for total project Project is: ___% ___ on schedule ___ behind schedule, explain: Expected Completion Date: _____
