#1459 "Accelerated Performance Testing on the 2018 NCAT Pavement Test Track with

MnROAD Research Partnership"

From: Monique R. Evans Wang R. Evans Acting Associate Administrator for Research,

Development, and Technology

McLean, VA

To: Mark Bartlett

Division Administrator (HDA-AL)

Montgomery, AL

This is in response to the November 08 e-mail from Clint Andrews of your staff, requesting the waiver of the non-Federal funding match for State Planning and Research-Subpart B (SP&R-Subpart B) funds for pooled fund solicitation 1459 "Accelerated Performance Testing on the 2018 NCAT Pavement Test Track with MnROAD Research Partnership". We understand that the Alabama Department of Transportation will be the lead agency for this project.

The proposed study meets the criteria for use of SP&R-Subpart B funds used for Research and Development studies without non-Federal matching funds. The approval status will be reflected on the Transportation Pooled Fund website: www.pooledfund.org, which serves as the primary mechanism for communication regarding pooled fund studies.

It is important to remember that the lead agency contact is required to report on the status of the pooled fund study on a timely basis. The contact should indicate when a contract is signed, and electronic copies of the quarterly and final reports and other relevant study documents should be posted on the website. By doing so, the lead agency will be fulfilling its obligation to provide information to its partners on the status of the project.

Jack Jernigan, Office of Corporate Research, Technology, and Innovation Management, Team Director R&T Program Development & Partnership will be the Federal Highway Administration's Technical Liaison for this study. Mr. Jernigan can be reached via phone at 202-493-3363 or e-mail: Jack.Jernigan@dot.gov. We hope that Mr. Jernigan will have the opportunity to participate in the study activities as a technical resource to the project.

You may contact David Pamplin (202) 493-3166 in the Office of Corporate Research, Technology, and Innovation Management if you have any questions or need further assistance.
