

Transportation Pooled Fund Program Quarterly Progress Report

TPF-5(058) Guidance for Implementation of the AASHTO Strategic Highway Safety Plan, Phase 3

April 1-June 30, 2008

Background

The objective of the study was to develop guidance documents to assist state and local agencies with reducing fatalities in target areas:

- Crashes Involving Drowsy and Distracted Drivers
- Rural Emergency Medical Services
- Work Zone Collisions
- Head-On Crashes on Freeways
- Crashes Involving Motorcycles

The work is managed by NCHRP under Project 17-18 (3)

Three of the guidance documents were completed and published prior to this quarter:

- NCHRP 500, Volume 14: A Guide for Reducing Crashes Involving Drowsy and Distracted Drivers
- NCHRP 500, Volume 15: A Guide for Enhancing Rural Emergency Medical Services
- NCHRP 500, Volume 17: A Guide for Reducing Work Zone Collisions

Progress This Quarter

- A fourth guidance document, NCHRP 500, Volume 20: A Guide for Reducing Head-On Crashes on Freeways, was published in June 2008.
- A revised draft of the fifth guidance document on crashes involving motorcycles was submitted to NCHRP for review.

Products Delivered This Quarter

- NCHRP 500, Volume 20: A Guide for Reducing Head-On Crashes on Freeways, http://onlinepubs.trb.org/onlinepubs/nchrp/nchrp_rpt_500v20.pdf, was published in June 2008.
- A revised draft of A Guide for Reducing Crashes Involving Motorcycles.

Planned Activities Next Quarter:

- Review revised draft of motorcycle guide. Submit comments for contractor to address.
