Re: Pooled Fund Project TPF-5(117) Performance Properties of Ternary Mixes

This letter is a revision of a prior letter dated December 17, 2007, due to a change in the SPR research funding administrator at the Iowa Department of Transportation. The Iowa Department of Transportation accepts the responsibility to lead the pooled fund project TPF-5(117) Performance Properties of Ternary Mixes.

Iowa DOT will administer pooled fund contributions, both Federal and non-Federal, transferred through FMIS interstate transfers or through the lockbox procedure, and will review and pay expenses related to this project. All monetary transactions will be documented according to DOT procedures and Federal laws.

Please contact Linda Narigon at (515) 239-1471 if you have any questions.

A handwritten signature in black ink that reads "Sandra Larson". The signature is written in a cursive, flowing style.
