# TRANSPORTATION POOLED FUND PROGRAM QUARTERLY PROGRESS REPORT

Lead Agency (FHWA or State DOT): \_\_\_\_\_IOWA DOT\_\_\_\_\_

INSTRUCTIONS:  Project Managers and/or research project investigated quarter during which the projects are active. Project task that is defined in the proposal; a perotect the current status, including accomplishments aduring this period.  Transportation Pooled Fund Program Project TPF-5(219)	lease provide a centage compl and problems a	a project schedule etion of each task, encountered, if an Transportation	status; a cor y. List	s of the research activities tied to ncise discussion (2 or 3 sentences) of
		Quarter 2 (April 1 – June 30, 2019) Quarter 3 (July 1 – September 30, 2019) Quarter 4 (October 1 – December 31, 2019)		
<b>Project Title:</b> Development of a Structural Health Monitoring System to Evaluate Structural Capacity and Estimate Remaining Service Life for Bridges				
Project Manager: Ahmad Abu-Hawash	Phone:         E-mai           515-239-1393         ahma			: d.abu-hawash@dot.iowa.gov
Project Investigator: Brent Phares	Phone:         E-ma           515-294-5879         bphai			il: es@iastate.edu
Lead Agency Project ID: RT 329	Other Project ID (i.e., contract #): Addendum 367		:t #):	Project Start Date: 3/01/10
Original Project End Date: 2/28/15	Current Project End Date: 03/31/2019			Number of Extensions:
Project schedule status:  ☐ On schedule				
Total Project Budget	Total Cost to Date for Project		ect	Total Percentage of Work Completed
\$869,911.00	\$867,247.64			98%
Quarterly Project Statistics:				
Total Project Expenses This Quarter	Total Amount of Funds Expended This Quarter			Percentage of Work Completed This Quarter
\$4,954.29				1%

## **Project Description:**

- Literature Review: Damage detection and load rating algorithms
- Literature Review: Techniques for assessing remaining service life
- Interim Report
- Development of real-time, strain-based algorithm(s)
- Development of real-time, vibration-based algorithm(s)
- Development of real-time, fused-data algorithm(s)
- Compare and contrast result(s) from Tasks 4 through 6
- Interim Report
- Development of Statistical Models to Extrapolate Time-dependent Load Ratings
- Development of Structural Models to Quantify Extrapolations
- Final Report

# Progress this Quarter (includes meetings, work plan status, contract status, significant progress, etc.):

The draft final report is currently under internal review and will be sent to the TAC in the coming weeks. A no cost extension will be requested to accommodate review of the final report. This extension was needed due to the length of the final report and the time needed to review it.

#### Anticipated work next quarter:

Submit draft final report.

## Significant Results:

Improvements to load rating calculations and service life estimations.

Circumstance affecting project or budget (Describe any challenges encountered or anticipated that might affect the completion of the project within the time, scope, and fiscal constraints set forth in the agreement, along with recommended solutions to those problems).

A no-cost time extension will be requested to allow for review of the final report.
